

Entangled

Genesis

When you're asleep they may show you
Aerial views of the ground
Freudian slumber empty of sound Over the rooftops and houses
Lost as it tries to be seen
Fields of incentive covered with green Mesmerized children are playing
Meant to be seen but not heard
Stop me from dreaming, don't be absurd, absurd Well, if we can help you we will
You're looking tired and ill
As I count backwards
Your eyes become heavier still Sleep, won't you allow yourself fall?
Nothing can hurt you at all
With your consent
We can experiment further still Madrigal music is playing
Voices can faintly be heard
Please leave this patient undisturbed Sentenced to drift far away now
Nothing is quite what it seems
Sometimes entangled in your own dreams, in your dreams Well, if we can help you we will
Soon as you're tired and ill
With your consent
We can experiment further still Well, thanks to our kindness and skill
You'll have no trouble until
You catch your breath
And the nurse will present you the bill
