

No Pity for a Coward

Suicide Silence

Dry your eyes
Hide your face with your hands
One last breath
Hold it in Fuck your past
The future
Is in your hand Just sit back and relax
Put your fucking shades on
Put that gun to your head
You're a fucking disgrace Can your god save you now? (6x) You coward (4x) Drowning yourself
In your tears
No one has
Pity for you Pity for you (3x) Seconds from the end
What's it gonna be
Pull the trigger bitch (4x)
