Telepathic People

The Adicts

Their open minds are doing fine
Sucking on our space and time
Destitute they'll find their goal
Looking in an empty hole
Telepathic people
Looking in my mind
Telepathic people
I don't know what you'll find
Private thoughts they try to hide
When hopelessly they look inside
Searching through your every thought
To find something they haven't caught
Telepathic people
Looking in my mind
Telepathic people
I don't know what you'll find (x2)
Their open minds are doing fine
Sucking on our space and time
Destitute they'll find their goal
Looking in an empty hole
Telepathic people
Looking in my mind
Telepathic people
I don't know what you'll find
Telepathic people
Looking in my mind
Telepathic people
Let me know what you find
