Butter Wouldn't Melt

Embrace

Butter wouldn't melt in your mouth
Someone said that you'd played around
And that's why me and him
Had to go out and straighten things out
Because butter couldn't melt in your mouth
My town girl is new in my life

That don't mean you're on trial
When those fools come calling on you
Don't feel down
'cos you've got nothing to prove
They don't see you through these eyes
I realize
