Sweet Dream Fade

Laura Nyro

Do you wanna make a sweet dream fade after all the tries we made?
Never mind perfection, heroes or heroines.
Tonight, let's be lovers again. Tonight, lover, let's be friends or make a sweet dream fade.Too many tears can dim the light, give or take, wrong or right.
Innovation, make amends, tonight, let's be lovers again.
Tonight, let's be lovers again. Tonight, lover, let's be friends or make a sweet dream fade.Kids cry, money flies away. Dream on, baby, dream on. Where have all the years gone?Do you wanna make a sweet dream fade after all the tries we made?
Never mind perfection, heroes or heroines.
Tonight, let's be lovers again. Tonight, oo, baby,
lover, let's be friends, lover, let's be friends or make a sweet dream fade.
Lover, let's be friends, lover, let's be friends or make a sweet dream fade.
Lover, let's be friends or make a sweet dream fade.
