

# Me And U

## Kandi

Me and u, we've got something special, we do  
They don't make them like this no more  
Me and u got that kind of love most people pursue  
But felt to ever few  
We've got that no matter what may come between us  
We'll always be me and u, will always be us  
So let the rain fall, nothing will defeat us  
Will always be me and u, it always will be us  
[Kandi (Ne-Yo)]Always be me and u (Me and u)  
Me and u (Me and u)  
Whenever, wherever, whatever, we are  
(Always me and u) Me and u  
(Me and u) Me and u  
Whenever, wherever, whatever, we are (Always me and u)  
Me and u, there's almost no such thing as us two  
We're almost one person, now  
Me and you, we're a mountain that cannot be moved  
No, nothing can move (Nothing can move)  
We've got that no matter what may come between us  
We'll always be me and u, will always be us  
So let the rain fall, nothing will defeat us  
  
Will always be me and u, it always will be us  
[Kandi (Ne-Yo)]Always be me and u (Me and u)  
Me and u (Me and u)  
Whenever, wherever, whatever, we are  
(Always me and u) Me and u  
(Me and u) Me and u  
Whenever, wherever, whatever, we are (Always me and u)  
You're looking for me  
You don't have to look far  
Baby by your side, that is where I are  
Forever faithful, they don't know about this love  
We've got that no matter what may come between us  
We'll always be me and u, will always be us  
So let the rain fall, nothing will defeat us  
Will always be me and u, it always will be us  
[Kandi (Ne-Yo)]Always be me and u (Me and u)  
Me and u (Me and u)

Whenever, wherever, whatever, we are  
(Always me and u) Me and u  
(Me and u) Me and u  
Whenever, wherever, whatever, we are (Always me and u)
