Heart of Courage

Two Steps From Hell

The promise,
Redemption
This time we fight for freedom
The dreamer
Awaking,
Shattered by love
The courage
Together
We lean against destruction
Salvation, remission
Wait,my new world
We take it,
We save it,
Our hearts unite each other
The one who dies with you
Follow your path soldier,
We face it, we save it
Until our last breath fading
Wherever, don't matter
Burning love for Gaia!
