

# Fever (Booyah Acoustic Remix)

## Family Force 5

[Intro:]

Fever's got me sweating and you know I'm burning up[Verse 1:]

Hey you, did you turn up the heat

It's getting hotter and I'm growing weak

Maybe it's because you're standing close to me

I'm coming down with something feverishly[B Verse 1:]

I think my body's in shock

It just don't know what to do

I feel my temperature rising

Past one hundred and twoFever, fever, fever, fever[Chorus:]

Fever, turning up the heat

Fever, come on and get sick with me

Gimme what you got 'cause you know it's getting hotFever, I'm turning flush

Fever, I'm burning up

Fever's got me sweating and you know I'm burning up[Verse 2:]

Fever's got this thing that I just can't shake

I tried to sweat it out but it would not break

My heart has taken all the heat that it can take

Just let it burn me up for heaven's sake[B Verse 2:]

Hot to the touch

To the nth degree

Thermometer's reading

About infinity[Bridge:]

Blow up the phone lines

'Cause I'm already at the red line

Somebody call me up the New York Times

This fever's gonna make the headlinesFever
