

Voices Drifting

The Holidays

If I come for you
In the night
And you will take My Hand
And you WILL Find And If I Come For You
In The Night
Just Me
Your Winter Opened And I like you cause
You don't care too much
You say what you want
You go where you want
Sail away with me
Slip away with me
All those pleasures
All that you can conceive Down for leisure
I'll take a mystery
Leave your window open
For me
Leave your window open for me Voices drifting
Through your hallway
Third apartment
Second store
And I like you cause
You don't care too much
You say what you want
You go where you want Sail away with me
Slip away with me
