Worst in Me

Julia Michaels

Yeah
Remember when I used to be happy for you
Could go out with your female friends and I'd be totally fine
Remember when you used to be happy for me
You'd celebrate all my success without crossing a lineNow it's like we're scared of getting good
Cause we know the truth is that we could
Yeah we know that we might actually work
And the truth is that we couldBut maybe it's the worst in me
That's bringing out the worst in you
I know we could fix these kinks
But the worst in me doesn't want to
Work on things
But the best in me wants to love you
But the worst in me doesn't want to
It's almost like I've gotten so used to resentment
That every annoying little thing you say has lost it's effect
It's almost like it's made you a little bit bitter
When I don't always react the way you expectIt's like we're scared of getting good
Cause we know the truth is that we could
Yeah we know that we might actually work
And the truth is that we couldBut maybe it's the worst in me
Bringing out the worst in you
I know we could fix these kinks
But the worst in me doesn't want to
Work on things
But the best in me wants to love you
But the worst in me doesn't want toI won't hurt you again if you won't, if you won't
And baby I won't lose you again if you won't, if you won't
Remember when I use to be happy for you
But maybe it's the worst in me
That's bringing out the worst in you
I know we could fix these kinks
But the worst in me doesn't want to
Work on things
But the best in me wants to love you
But the worst in me doesn't want to
