

# Come Lay Down

## Howie Day

Come lay down at the edge  
Come lay down at the broken edge  
Come lay down at the feet of angels  
Eying you in a northern skyCome lay down at the edge  
Come lay down where the time's suspended  
Come lay down and hear the voices calling you  
From a northern skyFollow me and don't look down, you're alright  
Come with me forget you're high, it's alright in allYour eyes are open and singing  
Your eyes are open and not quite breathing  
Your eyes are open seeing things that I can't see  
As hard as I tryYou follow me and don't look down, you're alright  
Come with me forget you're high, it's alright, alrightDon't look down  
Keep your eyes off the ground  
So afraid these days will fall  
Like tears down your faceFollow me and don't look down, you're alright  
Come with me forget you're high, it's alright, alrightFollow me don't look down, you're alright  
Come with me forget you're high, it's alright, alright
