We Could Be in Love

Lea Salonga

Be still my heart
Lately its mind is all its own
It would go far and wide
Just to be near youEven the stars, shining up bright
I've noticed when you're close to me
Still it remains a mystery.Anyone who's seen us
Knows what's goin' on between us
It doesn't take a genius
To read between the linesAnd it's not just wishful thinking
Or only me who's dreaming
I know what these are symptoms of
We could be in love.I ask myself why
I sleep like a baby through the night
Maybe it helps to know
You'll be there tomorrow
Don't open my eyes (ooh hoo-hoo)I'll wake from the spell I'm under
Makes me wonder how (tell me how)
I could live without you now.And what about the laughter
The happy ever after?
Like voices of sweet angels
Calling out our namesAnd it's not just wishful thinkingOr only me who's dreaming
I know what these are symptoms of
We could be in love.All my life, I have dreamed of this
But I could not see your face
Don't ask why to such distant stars
Can fall right into place.And it's not just wishful thinking
Or only me who's dreaming
I know what these are symptoms of
We could be in love....love.Oh, it doesn't take a genius
To know what these are symptoms of
We could be, oh hoh we could be
We could be in love, we could be
We could be in love.
