

Stay With Me

Erasure

Tempered by greed, tall buildings breathe
Give a sigh of relief when it's night
Stirring from sleep, we night owls creep
Is there any sign of life under this stone? OhStar, chime, hollow and true, love child
Weep for me and I will set your wheels in motion
Walk with me the inner reaches of emotionSheltered by creed one piled on one
Do you have a little room for one small one? OhLight shine wild and free, sunrise
Weep for me and I will set your wheels in motion
Walk with me the inner reaches of emotion
Stand by me and I will fill you with devotion
Walk with me the inner reaches of emotionLight shine, sunriseWeep for me, the sands of time will fill the ocean
Keep with me and like a roller on the ocean
Walk with me the inner reaches of emotion
Stand with me and I will fill you with devotion, oh, oh
