

I Still Miss Someone

Emmylou Harris

At my door the leaves are falling
The cold wild wind will come
Sweethearts walk by together
And I still miss someone No I never got over those blue eyes
I see them everywhere
I miss those arms that held me
When all the love was there I go out to wild parties
To look for a little fun
But I find the darkened corner
For I still miss someone No I never got over those blue eyes
I see them everywhere
I miss those arms that held me
When all the love was there
