

# Savage (feat. Datin, GemStones & K. Allico)

## Sevin

Hooked on God Mobbin'  
God Over Money  
Hog MOBWhen it comes to what I stand fo'  
I will go to war like Rambo  
In camo or Schwarzaneggar commando  
Or Contra loaded with ammo  
In the 99 extra man code  
I'll fight for man's souls  
I'm battling with the dark night no Bruce Wayne  
Heads up on Bruce Wayne I will introduce Bane  
The dark night's a lion  
Minus the zoo cage  
Looking for someone to devour on the food chain  
That's why my crew came deeper than Wu Tang  
And no we ain't the soowoo gang you dudes bang  
But you see that blood on us  
Indeed that devil poo stain  
???????????????? the true king is who reigns  
We grab the mic with Bruce Banner's mood swang  
Spew flames like Ryu or Liu Kang  
To break yokes see homie  
We spit the truth plain  
So you don't need a huge brain like that dude Krang  
To understand the Gospel that can remove chains  
Let me put my two cents in no loose change  
You trippin' like loose shoe strings if you claim  
This world does not need God when all the youth aim  
To be villains they on that primate gorilla tip  
But homie this is why the mind state is militant  
We're at war to spread the truth that can cleanse them  
But we gon' keep it hard body like The Thing Ben Grimm  
Waaa  
Hooked on God Mobbin'  
Yeah you gotta know I'm wit dat  
Shotgun blow how it go for the kingdom  
Yeah the flow got kickback  
It's real in the field where the fake get revealed  
Oh no no we we ain't wit dat  
Uh

It's real over here  
I swear it's real over here  
What the fake will not do  
Know we will over here  
We too elevated you can't weigh us down  
We way above average  
And my clue to you  
Watch long enough and we will not have it  
The kingdom suffer's violence  
The violent taken by force and we savage  
The kingdom suffer's violence  
The violent taken by force and we savage  
Yeah  
Yeah  
Ay  
Ay  
I flip like a scissor kick  
So ridiculous the fire pit licks and then sizzles spit  
So try to predict what my Fahrenheit is plus  
I'm sick and I'm fly like a virus  
On a pair of pilots that are stricken with laryngitis  
And  
We move with the force of the Lord risen  
Before we abort mission  
Report to the morticians on the porch of the fortress  
Keepin the torch lit with the  
four-fifth and a reach as deep as the courts is  
Speaking of court systems we need to  
be deporting these derelict heretics  
(Be)fore they speakin' to more Christians  
Maybe for the sheep if we could be more vicious  
We'd be more efficient at reapin' in more fishes  
We don't leave it to question  
Ain't no need for the guesses  
Oh yes they know exactly what we about  
We reading for demons until we weed em out  
We beat em and clean em until we bleed em out  
My haters talking want me to sin  
But couldn't walk a day in the socks that my feet are in  
We bringing the gospel to the blocks ya get beat up in  
Keep playing with me you get more dots than a cheetah skin  
They don't really know the agape that we up in  
Freedom in the Lord means He got me over my sin  
Yeshua is the door the mob is only a hinge  
They mistreated Him before but God is gon' be avenged  
Hooked on God Mobbin'

Yeah you gotta know I'm wit dat  
Shotgun blow how it go for the kingdom  
Yeah the flow got kickback  
It's real in the field where the fake get revealed  
Oh no no we we ain't wit dat  
Uh  
It's real over here  
I swear it's real over here  
What the fake will not do  
Know we will over here  
We too elevated you can't weigh us down  
We way above average  
And my clue to you  
Watch long enough and we will not have it  
The kingdom suffer's violence  
The violent taken by force and we savage  
The kingdom suffer's violence  
The violent taken by force and we savage  
I say to my self cuz I don't be normal  
"what's going on with these  
Funny style sucka rappers that only talk about it"  
"You dreaming if you think that you gon' get on a song  
And out rap me you better wake up  
and apologize if you thought about it"  
God Over Money's a clique who keep it 100 through thin and thick  
There was things I was dealing w
