

# Purpose

## Ohene

I believe in your purpose baby  
Coming up to the surface and maybe  
I'll never see you again, then again who knows  
    Make me quiver, hands'll shiver  
    Still got all the things that I woulda give her  
        Yeah, yeah but it's slow going  
        Something's showing yeah, yeah  
They say love is a stream that will find its own course  
    Making due is a thing, a thing I will do no more  
        Whenever you come back I'll be waiting  
        Trifling the slack no head gating  
    This is all pure fiction you know that's right  
        Just pure fiction, that's all right  
        I believe in your purpose baby  
        Coming up to the surface and maybe  
    I'll never see you again, then again who knows  
        Make me quiver, hands'll shiver  
        Still got all the things that I woulda give her  
            Yeah, yeah, but it's slow going  
            Something's showing yeah, yeah
