

Holy Grail

Zorita

I've come to say goodbye For reasons you won't understand
I tried so many ways To let go of your hand I've drenched you in roses And the sweetest of wines
My pockets are emptied My heart I bled dry So go on and haunt me Go and lay down your spell
You might think that you know But you don't me that well
You may think that you know me You don't know me at all So save yourself Your master plan
I'm not that guy I'm not your man
Go find yourself Some holy grail
But leave me out I don't believe in fairy tales I don't ask for forgiveness Don't expect no remorse
My best I have given I just made the wrong choice So gather your knights And set them to arms
I'm already dead You can't do me no harm
This is the end Last beat of the drum
So goodbye Don't try and haunt me Don't you lay down your spell
You might think that you know But you don't know me that well
You may think that you know me You don't know me at all
