

# Dressed to Kill

Preston

You're dressed to kill Come a little closer, so I can look you in your eyes  
So I can see what I been missing, so I can see through the disguise  
You're dressed to kill You got me in the sight of your gun, you're dressed to kill Sell your soul to rock and roll  
The only thing that thrills you  
Evil grins as night begins  
Gonna rock until it kills you  
Learn to live fast  
Learn to die young  
Life's one big chase  
You're caught in the race  
You're never gonna slow down You're dressed to kill  
Kill me baby  
You're never gonna let go  
You're dressed to kill  
You kill me baby  
You're dressed to kill Wake the dead with loud guitars  
Screamin' in your head  
An angel sings, fulfills the dreams  
That are dancin' in your bed  
Live for the danger  
Die for the fun  
Life's one big chase  
You're caught in the race  
You're never gonna slow down You're dressed to kill  
Kill me baby  
You're never gonna let go  
You're dressed to kill  
You kill me baby  
You're dressed to kill You're dressed to kill You're dressed to kill Ahhhh, yeah  
Kill me baby  
You're dressed to kill  
You kill me baby  
You're dressed to kill  
You're dressed to kill... etc.
