Sikome Beach

Chixdiggit!

remember the time when you and i were still in love we lived at the beach to be with people that felt the same remember the songs that we used to sing back when we were groovin' wherever we go we're always at sikome beach remember the time at the bar out by the campgrounds wondering how bangers swim in cut off blue jeans we floated away on a double blue air-mattress thinking about the islands and the streams wherever we go we're always at sikome beach well the sun was hot and we would know that it would take forever just to get back to the shore we're gonna see our friends just to sit and dream there won't be another time that i will feel so free until we reach sikome beach we always got sikome beach [x3]
