

# Chasin' You Around

## Sugar Ray

I woke up late again this morning  
It's just another morning, lying there for me  
In your mind you're always runnin'  
Keep on runnin', run away from me  
I've spent all my time chasin' you around  
It's that way now I found out for sure  
I've spent all my time chasin' you around  
It's that way now I found out for sure  
Said you'd stay and make it better  
We'd stay together, it's what you said to me  
But you left without a warning  
And now another morning is lying there for me  
I've spent all my time chasin' you around  
It's that way now I found out for sure  
I've spent all my time chasin' you around  
It's that way now I found out for sure  
And every time that I try to get to you  
There's nothing I can say  
We try but seems there's nothing left to do  
But I'll wait anyway

I've spent all my time chasin' you around  
It's that way now I found out for sure  
I've spent all my time chasin' you around  
It's that way now I found out for sure  
I know, I know, I know  
Whatever it takes now  
I'll make no mistakes now  
Whatever it takes now  
I know, I know, I know  
Whatever it takes  
I'll make no mistakes now  
Whatever it takes now  
I've spent all my time chasin' you around  
It's that way now I found out for sure  
I've spent all my time chasin' you around  
It's that way now I found out for sure  
I've spent all my time chasin' you around  
I've spent all my time chasin' you around
