Club Limbo

Squirrel Nut Zippers

One, two, three, fourBefore this evening draws to a close
And you go home to homework
Before the moon goes down on lonely streetI know a place where we can go, baby
Where you can find out just how low life can beHas no one told you, you have a future, girl
So bright and filled with promise
Has no one lead you down to Club LimboThat's just the place for us to meet, baby
Where you can find out just how your life should beThe clock is ticking and you are picking
Clothes, maybe to wear tomorrow
You haven't met me yet soon you willDown at Club Limbo they still play stardust
Down at Club Limbo that's the place for love
