

Burning Bridges

[Kittie](#)

Hell above
Your star is below
There's no comprehension
There's no voice of reason here
Fairy tales dividing
Broken wings unfold
Before you
Take a look at what you've become
Hell above
Your star is below
All I see
Covered in dirt
Hell above
Your star is below
All hope dies
Burning bridges
I'll take the truth before trust
When the world comes crashing down
Embrace the pain
In a world of lies
I'll take the truth before trust
Flight betrayed you
Clipped your own
Take a look at what you've become
One truth for you
