Everything You Are

Tevin Campbell

Can I hold you forever in my arms and not let go?
'Cause I really wanna be with you
Say it's so, till the end of time your love is all I know
'Cause I really wanna be with you
When I'm all alone
I surround myself with every thought of you
I love the things you do, yeah
Your love gently lays me down
Turns me all around, makes me love you once again
Yeah, one kiss, lips upon my face
Nothing could erase, everything you are
All we have is a love we share and that's enough for me
'Cause I really wanna be with you
In a thousand years if I lost your love
I'd cry a thousand tears, I'd cry a thousand tears, yeah
Your love gently lays me down
Turns me all around, makes me love you once again, yeah
One kiss, lips upon my face
Nothing could erase, everything you are
Just one look in your eyes makes me melt inside
And I know when you're holding me close
It's for real, yeah, yeah, yeah, yeah, yeah
You're the love that I've wanted to stand the test of time
And I know in my heart, you will always be mine
Your love gently lays me down
Turns me all around, makes me love you once again
One kiss, lips upon my face, ooh baby
Nothing could erase, everything, everything
Everything you are gently lays me down
Turns me all around, makes me love you once again
One kiss, lips upon my face
Come on and kiss me, baby
Nothing could erase, everything you are
Your love gently lays me down
Turns me all around, makes me love you once again
One kiss, lips upon my face
Nothing could erase
