

# Out of Love (feat. Cosmos & Creature)

## Two Friends

How long can you walk around without knowing  
How long will it take till your faith is broken  
Tell me how long will you wait for the doorto open  
Well I know, I know, I know  
We never really know  
So hear me outIf you're running out of love  
Then I can fill you up  
And when it gets too much  
Just hear me out  
If you're lost in all the haze  
Well I can clear the way  
I know you'd do the same  
So long, till the pain this heart is holding  
What's wrong when the days we have are golden  
Will you hold on  
While the world outside is frozen  
Well I know, I know, I know  
We never really know  
So hear me outIf you're running out of love  
Then I can fill you up  
And when it gets too much  
Just hear me out  
If you're lost in all the haze  
Well I can clear the way  
I know you'd do the same  
If time's all we have  
Why are you caught in a rush  
We were made to last  
All that you are is enough  
If time's all we have  
Why are you caught in a rush  
We were made to last  
All that you are is enough
