All Hype All Night

Capture the Crown

Siri, I'm drunk
Isn't that a little early for that?All hypeIt's friday night
And the weather is good
My mates are on the way
I'm stoked because
Tonight we're getting
Fucking looseDressed to kill
Walk out the front door
My mum and dad yell
"Don't be home later than four"
Sorry guys, I've busted my ass
At work all week
And I deserve more than a few drinksIt's time to rage
Just fill up a cup
Kiss the nearest person
Just don't give a fuck
Live a little
Scream out your lungs
Go hard or go home
Don't be A bitch cuntDon't think of tomorrow (think of tomorrow)
We're living for now
So rage all night
Let's go to hell on this town
Staing up late, that's right
All hype, all night
Staing up late, that's right
All hype, all nightDrop a molly, climb a roof
Preatand to fly
Tonight will be the wildest night of my life
Pop a bottle, smoke a blow to this
This is every night, we're young
This is the way we live
Walk into the party
There's not a soul to be seen
Fuck, I been pumped for this shit all week!
Bung as, I'm losing sight
I close my eyes without a care
Open them and there's people everywhereDon't think of tomorrow (think of tomorrow)
We're living for now

So rage all night
Let's go to hell on this town
Staing up late, that's right
All hype, all night
Staing up late, that's right
All hype, all nightHere's to you, you're true blue
You're a piss pot through and through
You're a bastard, so they say
You tried to go to heaven
But you went the other way, you went down
Down, down, down, down, down, down, down
Down, down, down, down
You tried to go to heaven
But you went the other way, so get down
Down, down, down, down...All hype, all night (all night, all night, all night)Oi, you've got to fucking fight for your right to party
I'm not fighting for shit
