White Rabbits

Well, how do you do, a kiss on the cheek?
It's been a while so I'll just beg, borrow
And steal all your time, we'll call it dignified
Well, now it all seems to be cut and drySo I know which way to run
You're tired my love, I feel the sameWell, take it from me, what else could you do?
Where do you get off and how can I get there too?
All your time well call it dignify
Well, now it all seems to be cut and drySo I know which way to run
You're tired my love, I feel the same, ahYou'll never come back
My God, can't you see that?I know which way to run
You're tired my love, I feel the same
The Lebanon won't speak my nameWell, everyone's saying rise and shine
It might not be true, romance is fine'Cause I know which way to run
You're tired my love, I feel the same
The Lebanon won't speak my nameWe're leaving this we're jumping ship
Just give me a piece of mind 'cause I
