

Who the Hell Cares (feat. Snoop Dogg)

Methods Of Mayhem

Theory of relativity times spirituality adrift
back in my memory searching for something sig-a-nificant
deep with enemy i want to travel the world and the 7 seas
adventure to the desert with some water and plant a seed
kick down some of my energy
and now i can see things that before i could never see
a new dimension filled with knowledge and harmony
one brotha 2 anotha kick back and play a drum
Realize what lies deep within your mind
between you and me look inside and you'll find
realize what lies deep within your mind
between you and me let the blind lead the blind
Who the hell cares where the fuck you come from
who the hell cares where the fuck you come from
who the hell cares where the fuck you come from
who the hell cares where the fuck you come from
Make your moves get your dibs
nigga fuck them kids talkin shit about you dog,
they don't know how it is on the up yo you know what?
Mutha fuck yo cause i'm the top dog big dog big ball on the block
gettin money fuckin hos and rockin hiphop
methods of mayhem with d-o-double g-y and we ride,
slidin to a whole different beat on the street bang-bang chitty chitty
i'm a crazy nigga from the mad ass long beach city.
I'm not your neighbor i'm a gangsta with the flava and ill behavior.
