## **Catching Feelings**

## **Sammie**

Now you wanna catch the feelings Mmm, mmm, mmm, mmm

Now you wanna catch the feelings

(Just a bit older now)

Now you wanna catch the feelings

Now you wanna catch the feelings

(And I wonder why, why?)

Now you wanna catch the feelings

Now you wanna catch the feelingsStarted out as best friends

Just a bit older now

I remember when

We would stay up all nightTalking on the telephone

Rapping till the sun came up

It's so funny how

Things have changed 'causeNow I don't know, exactly what to say

To find out if she feels the same way

And if she don't then that will break my heart

I'll keep it to myself even though

I know that it will be hardI'm catching feelings

That I've never done before

I can't believe, I'm falling for her

I'm catching feelings

Don't wanna hold back no more

'Cause she's the only one I adore

(She's the only one I adore)I tried to hide the, the way I feel for her

But when she's near me, I tend to let it show

Like getting jealous when others talk to her

Why can't I get the nerve to call

And let my feelings show girl? Now I don't know, exactly what to say

To find out if she feels the same way

And if she don't then that will break my heart

I'll keep it to myself even though

I know that it will be hardI'm catching feelings

That I've never done before

I can't believe, I'm falling for her

I'm catching feelings

Don't wanna hold back no more

'Cause she's the only one I adore

(Girl I adore you)I'm catching feelings

That I've never done before
I can't believe, I'm falling for her
I'm catching feelings

Don't wanna hold back no more

'Cause she's the only one I adoreAlthough I dream of you becoming my girl

I also wanna be your best friend

'Cause you're the only girl I want in my world

I try to front but I just can't beginI'm catching feelings

That I've never done before

I can't believe I'm falling for her

I'm catching feelings

Don't wanna hold back no more

'Cause she's the only one I adore(I'm catching feelings)

I never thought, I'd fall for her

Being friends was cool enough

I miss the way we used to roll

But I have to catch these feelings(I'm catching feelings)

I never can build up the nerve

(Don't wanna hold back no more)

Or the words to say to her

I really, really miss the way we used to be I'm catching feelings

That I've never done before

I can't believe, I'm falling for her

I'm catching feelings

Don't wanna hold back no more

'Cause she's the only one I adore
