

Start A Riot

Banners

I will march down an empty street like a ship into the storm
No surrender, no retreat
I will tear down every wall
Just to keep you warm
Just to bring you home
I will burn this city down for a diamond in the dust
I will keep you safe and sound when there's no one left to trust
Will you take my hand?
We can make our stand If your world falls apart
I'd start a riot
If night falls in your heart
I'd light the fire
In the dark, when you sound the alarm
We'll find each other's arms
For your love, all you are
I'd start a riot I will wade through the fire and smoke like sunlight through the haze
I will fight till the flag waves white until my dying days
Through the bombs and blasts
We will take it back If your world falls apart
I'd start a riot
If night falls in your heart
I'd light the fire
In the dark, when you sound the alarm
We'll find each other's arms
For your love, all you are
I'd start a riot I'd start, I'd start a riot
I'd start, I'd start a riot
I'd start, I'd start a riot
I'd start, I'd start a riot Ooh, ooh If your world falls apart
I'd start a riot
