Broken

Reamonn

I know what's eating up inside you
I know you never tried to lie to
All those who really want to help you
Heal the pain that breathes inside youI hope we find a way together
God knows we'll never make it better
Unless we stick it out together
We need the love of those who forgive usAnd even though this life feels like it
Has left you in the cold
Hope is like a heartbeat
Breathing in your soulAnd if it's broken
I will try to fix it
And if it's broken
I, I know we'll fix itNo one can feel your pain
That you carry with you
No one can feel your strain
And now you're brokenI know we try to get stronger
Lord knows it's gonna take longer
For you to forgive yourself
And the face in the mirrorAnd even though this life feels like it
It's left you in the cold
Hope is like a heartbeat
Breathing in your soulAnd if it's broken
I will try to fix it
If it's broken
I, I know we'll fix itNo one can feel your pain
That you carry with you
No one can feel your strain
You're feeling like you're brokenTime heals all
Yeah, time heals all
Hope is like a heartbeat
Breathing in your soulAnd if it's broken
I will try to fix it
If it's broken
I, I know we'll fix itIf it's broken
I will try to fix it
If it's broken
I, I know we'll fix itNo one can feel your pain
That you carried with you
No one could feel your strain

That you carried with youNo one can feel your pain
That you carried with you
No one could feel your strain
I know you're broken
