Nivea

[Intro]
What's your zodiac sign
Shorty what your sign is [x3]
What's your zodiac sign[Verse 1]
Lately you've been leaning my way
There's something that I wanna say
But part of me don't really wanna ask
We've been getting along so fine
The questions storm into my mind
I may not like the answer you give back
Forever way you like me
Or some form of back breaker
Cause you're caught up in what might be
Or what we know how to make up
Last time our signals weren't on deck
Shoulder signs no respect
Spent the whole summer being put in check[Chorus]
What's your sign, your sign
I wanna know if we connect
Are you Aries, Virgo, Taurus, Gemini
Boy holla back
Hey what's your sign, your sign
Only Leo, Libra, Capricorn
I think I met my match
I gotta know your zodiac
What's your sign, your sign
Scorpio, Aquarius, Saggitarius, Pisces, Cancer
Please say the rest
Hey what's your sign, your sign
What's your sign, your sign
Hey what's your sign, your sign
What's your sign, your sign[Chorus 2]
Shorty what your sign is [x6][Verse 2]
Now
I'm going through another day
And every piece of you has sprung on me
Wanna take it to a point of no return
I'm thinking on the one to twelve chance
But there's only eight percent

As I await your confirmation I feel it burning
I think I seen the first stone in a ring that you wore
Now I'm thinking back to previous relationships before
I trult adore you and I really want more of you
They say opposites attract
But I don't know know know know know know know[Chorus]
What's your sign, your sign
I wanna know if we connect
Are you Aries, Virgo, Taurus, Gemini
Boy holla back
Hey what's your sign, your sign
Only Leo, Libra, Capricorn
I think I met my match
I gotta know your zodiac
What's your sign, your sign
Scorpio, Aquarius, Saggitarius, Pisces, Cancer
Please say the rest
Hey what's your sign, your sign
What's your sign, your sign
Hey what's your sign, your sign
What's your sign, your sign[Chorus 2]
Shorty what your sign is [x12][Bridge]
If you an Aries
They sweet like you are boy
If you a Taurus
Boy stop being so mean
Or if you Gemini
I try my best to work it out
Keep communicating with me and I won't let you down
And if you Cancer
I appreciate your sympathy and loving me
Or Leo
Warmhearted and generous you are
Virgo
Shy and modest, meticulous I love it
Oh Libra
Romantic, diplomatic, I'm so ecstatic
Scorpio
Stay determined for us, passion and love
Can't forget about saggitarius
Thank you for being optimistic
Hey capricorn
For the patience you show me
Ooh Aquarius
Keep it loyal, like my closest homie

Pisces
Sensitive, imagination unwordly
Am I the one for you [x4][Chorus 2]
Shorty what your sign is [x6]
