

One Great Mystery

Lady Antebellum

I don't know how many stars fill the sky
I know we're here, but I don't know why
Maybe there's some other life out there
But as long as you're here with me, baby, I don't really care

There is only one great mystery
I keep searching for the answer desperately
Tell me, tell me baby, tell me please
What did I ever do to make you fall for me?

Don't know what happens when we leave this world
But I know I'll go right on loving you girl
I'll close my eyes and drift off into the blue
And if I go first, I will wait for you

There is only one great mystery
I keep searching for the answer desperately
Tell me, tell me baby, tell me please
What did I ever do to make you fall for me?

I guess I'll never really know
How I deserve someone that loves me so

There is only one great mystery
I keep searching for the answer desperately
Tell me, tell me baby, tell me please
What did I ever do to make you fall for me?
