Apology

The Echoing Green

Take a moment
Hear the sky
Take notice
Fear a lieDon't kill another dream tonight
Don't run from something you can't fight
And don't wait for sunshine in an endless night
You'll be sorryWhen I take a look at all the tears you cried
I'm sorry, sorry
See the pain that hides behind your eyes
I'm sorry, sorrySee the sadness through your disguise
I'm sorry, sorry
Hold on to it and I think you'll find
That you're sorry, sorry now
Sorry, sorry
Sorry, sorryAnd so falls the rain
It won't cleanse the stain
You still feel the pain
InsideSo don't kill another dream tonight
Don't run from something you can't fight
And don't wait for sunshine in an endless night
You'll be sorryWhen I take a look at all the tears you cried
I'm sorry, sorry
See the pain that hides behind your eyes
I'm sorry, sorrySee the sadness through your disguise
I'm sorry, sorry
Hold on to it and I think you'll find
That you're sorry, sorry as I
Sorry, sorry as I
Sorry, sorryI'm sorry, sorry
So sorry, sorry now
I'm sorry, sorry now
I'm sorry, sorry nowSo don't kill another dream tonight
(So sorry, sorry now)
Don't run from something you can't fight
And don't wait for sunshine in an endless night
(So sorry, sorry now)
You'll be sorry
So sorry, sorry
