Here I Am

Halifax

Here I Am singing my hopes and dreams of yesterday
Today I am here
My childhood dream come true
This could be youJust 2 years ago I was listening
To "All My Fault" and "San Dimas Football Rules"
As time went on and on
Now 2 years later
I am writing a song
Cause I never thought
That I would never make it this farBut I dreamed and that dream came true
And I dreamed that that dream came trueSo Here I Am singing my hopes and dreams of yesterday
Today I am here my childhood dream come true
This could be youSeems likes yesterday i was hanging out and strumming my guitar
while singing these words without a chance in the world as i
grab the mic and look and then steer into the crowd
And my energy builds insideSo here I Am singing my hopes and dreams of yesterday
Today I am here my childhood dream come true
This could be youAnd I dream that that dream came true
And I dream that that dream came trueSo here I Am singing my hopes and dreams of yesterday
Today I am here my childhood dream come true
This could be youI dreamed and that dream came true
And I dreamed that that dream came true
This could be you
This could be you
