

# Sixes

## Guice

And you won't say, "I knew her when"  
The time for that has come and gone  
like the railway station  
You won't say, "If I'd known that then,  
I would not run, I would have stayed  
Could have been okay" We lay around  
We lay around  
We lay around all of our lives  
All of our lives, we lay around. This is the place we've built inside  
A place for sixes, suns and cows  
Little things like memories  
Why was I scared of what I'd find?  
Sibling trust, lover's dance  
Laugh like old friends We lay around  
We lay around  
We lay around all of our lives  
All of our lives, we lay around.
