Is this just a dream
Livin' in a fantasy
Surrendering our hope
Never, never
Teaching old mistakes
Deep from a memory
Two is forever
One stands apart
Love's forgotten
The pain from the start
Hate for each other
So blind to kill
'Cause it will
Yes, it will
(stand up)
Stand up before it's too late
This is not a dream, no
(stand up)
Stand up before it's too late
Oh...
And we walk hopelessly
What we leave behind
Is it fool's reality
Heaven is a child
I know

You know
Fear is forever
Both stand apart
When love's forgotten
The tears from the start
(stand up)
Stand up, before it's too late

This is not a dream, no...
(guitar solo)
Sorrow, sorrow
Surroundin' my soul
Cry no more
All forgiven
Two is forever
One stands apart
When love's forgotten
The tears from the start
So, so unfair
We turn away
And I know
Yes I know
(stand up)
Stand up, before it's too late
This is not a dream, no
(stand up)
Stand up before it's too late
Stand...
Before
