Telephone

Pitty Sing

You don't really want me, you don't really want me, you don't really want me
Whatever I do, whatever I do, whatever I do
Easily when it's all I ever put together
Forever always, forever always
You don't understand me, you understand me, you don't understand me
Whatever I say, whatever I say, whatever I say
Easily when it's all the words I choose to serve you with
Forever always, forever always

Hey, hey babe you wanna be alone, but then you cry all night on the telephone
Hey , hey baby let there be no doubt there's still a lifetime till you got it all worked out
Hey, hey babe you wanna be alone, but then you cry all night on the telephone
Hey, hey babe I knew it all along that it would do you good for me to do wrong
It's all I ever did whatever
