

Orwell's Year

Golden Earring

From the Album:

* N.E.W.S. We have been waitin' for this

To put an end to all bliss

Oh there's works to be done

Oh there's work under the sun

Happy New Year!

In the back alley's

Millionaire valley's

Trafalgar Time Square and the who knows where!

Big brother's to watching you

Baby's got a computer tutor

Daddy is a trouble shooter

Fat cookie in a soylent green

From a kitchen that you've never seen

It's all shiny chrome - attaching your chromosomes

Say - count to four -

Count to 1 - 9 - 84

Welcome

Welcome to 1984

Orwell's year is here!

Yeah

It's the ministry of energy

The ministry of ecology

The university of food and economy

The ministry of war and explosions

The ministry of you and me

Minus Orwell's sanity

Welcome everybody - to be a nobody

The ministry of heavenly peace

Big brother's watching you!

Orwell's year is here!

Say you wanna hear some more

Big brother's watching you!
