# Funky Junky

## Charlie Daniels Band

Trying to do my own thing
Is very hard to do
Creating style is my thing
Being funky through and throughI've come up with something
That's pretty fly and new
So move your butt on up here
So you can do it tooMove it to the left
And then you move it to the right
I wanna see your body move
I think you've got it rightDo the funky junky
Let's do the funky junky
Do that funky junky, baby
Do the funky junkyEvery time I get the urge
You'll see my body move
I wanna do the junky
I can't resist the groovePeople always see me
And laugh with full content
But then I see them doin' it
They sure ain't heaven sentI try to show them funky
So that they will understand
They quickly pick it up and move
I think they've got the hangDo the funky junky
Let's do the funky junky
Do that funky junky, baby
Do the funky junkyBring it down
The PA system throwing vocals
Smooth to hype the funk track
With the LW swing and prime riffsThat keep the floor packed and jumpin'
To a beat that's made for pumpin'
Word, it's a dope track, Jack
So let 'em tell you somethingAbout this funky junky, Mack
Front and the tip of my bozack
With crazy juice
Like Mother Goose were cutting looseAnd here's the pure facts so step back
The beat is straight of funky
A new set that's good to go
We got you hooked just like a junkyI wanna see your body
I think you oughta show me
I wanna see you move that body, baby

From side to sideI think you oughta show me
I am the man to do it
I wanna see you do that funky junky
Then I'll make you mineMove it to your left
The move it to your right
I wanna see your body move
I think you've got it rightDo the funky junky
Let's do the funky junky
Do that funky junky, baby
Do the funky junky
