

Say It to Me

Ali Fontaine

Ali Fontaine say it to me lyrics

i think its so cute you believe that i care
immature little girls who are going no where
you know I'm not the type to fight, to fight
I'm just here to have some fun to-night

get your head out the clouds
girl come back down
tell me what you're tryna say
come on say it to me
oooh say it to me

do you think what you say will really bring me down
cause words mean nothing when they come from a little ol' hound
you know that i can see right through you
you'll never break me and there's nothing that you can do

get your head out the clouds
girl come back down
tell me what you're tryna say
come on say it to me
oooh say it to me

get your head out the clouds
girl come back down
tell me what you're tryna say
come on say it to me
ooooh say it to me
ooooh say it to me
oooh say it to me
