

Daydreaming

Simply Red

Keep on living now
I'm a believer, yes I am
I do the very best I can
You might say I am a daydreamer Do you feel your a daydreamer
In this world we're living in
Our suffering is a sin
You might say we need a faith healer Do you pray we need a faith healer
Don't stop me daydreaming
Don't stop me daydreaming
Dreaming of the world where love is strong
Dreaming that the humans race goes on and on
Dear live lives on.
Let's cool it all down if we can.
And show the very best of men
Do you feel like a daydreamer
Cause in this world were living in
You know that suffering is a sin
You might say we need a faith healer
Do you pray we need a faith healer
Don't stop me daydreaming
Don't stop me daydreaming
Dreaming of the world were love is strong
Dreaming that the human race goes on and on and on
Dear live lives on and on and on and on and on...
