

I Can See You'll Never Make It Out

MOTHXR

I can see you'll never make it out

I can see you'll never make it out

I can see now

I can see you'll never make it out of We might fool

When we stop pretending I'm in this too

We might fool I can see you'll never make it out Everybody knows the feeling and it's... Goes a million ways

Just like a trap

I can see you'll never make it out

I can see you'll never make it out Everybody knows the feeling and it's...
