

# Lovely lady of Arcadia

Demis Roussos

We met one magic summer day  
A dream came true and blew a way  
For as your love began to grow  
The time had come for me to go  
Now all that I am living for  
Is to come back to you once more  
Lovely lady of Arcadia  
Promise you will wait for me  
In your arms I found my Shangrila  
And it's where I long to be  
Lost in love eternally  
I feel alone among the crowds  
And sunny skies are filled with clouds  
I miss your kiss and your embrace  
The emptying smile that lights your face  
And just as long as we're apart  
The same old song will haunt my heart  
Lovely lady of Arcadia  
Promise you will wait for me  
In your arms I found my Shangrila  
And it's where I long to be  
Lost in love eternally
