

# Whole Lot to Think About

## Wood

You've given me a whole lot to think about  
Now leave me be  
You've given me a whole lot to think about  
Now leave me be I'm so confused, what should I do  
I'll take a drive to somewhere I used to go You've given me a whole lot to think about  
Now leave me be  
You've given me a whole lot to think about  
Now leave me be I need some time to clear out my mind  
If visions are true then why couldn't I see you? You've given me a whole lot to think about  
You've given me a whole lot to think about  
Oh yeah, yeah A whole lot to think about, oh yeah You've given me a whole lot to think about  
You've given me a whole lot to think about You've given me a whole lot to think about  
You've given me a whole lot to think about
