Nihilist Assault Group

Stereolab

What's morals after all?
Set of rules from aboveMoral panic calls for more censorship
While annihilating le perdure sans critique, critique
Moral panic calls for more censorshipWhat's morals after all?
Set of rules from aboveMoral panic calls for more censorship
While annihilating le perdure sans critique, critique
Moral panic calls for more censorshipWhat's morals after all?
Set of rules from aboveMoral panic calls for more censorship
While annihilating le perdure sans critique, critique
Moral panic calls for more censorshipWhat's morals after all?
Set of rules from aboveMorals which don't even tackle the real issues
Morals which seek intervention and control
Morals which don't even address the real problemsWhat's morals after all?
Set of rules from aboveMorals which don't even tackle the real issues
Morals which don't even address the real problems
Morals that just seek control over our lives
