The Long Fall

In Dying Days

Skies are open. Eyes are closed.
I'll take a while to put on my clothes.

You walk in and I wake up.
And the world starts another round.

Make it long and take it slow.
All we have is this free fall.

Eyes are open. Sun is slow.
Linger 'round the coffee shop.
Girls and spring they show their skin
as the world starts around round.

Make it long and take it slow.
All we have is this free fall.
All we have is this long fall.

Skies are open. Eyes are closed.
You can linger 'round these girls.
I will wear my Sunday smile.
And the world will start another round.

Make it long and take it slow.
All we have is this free fall.
Make it long and take it slow.
All we have is this free fall.
All we have is this wrong goal.

All we have is this free fall.
You'll walk in and I'll wake up.
I will wear my summer smile.
And the world end another round.

Make it long and take it slow.
All we have is this free fall.
Make it long and take it slow.
'cos all we have is this free fall.
All we have is this free fall.
All we have is this long fall.
