She Called Me Kansas

Aaron Lines

We sat and watched the sun come up
With a blanket wrapped around us
We spend all night out on that beach
Couldn't hold her close enough to me
That was love I won't forget
And I still remember what she said
She called me Kansas
She said that I reminded her of home
She called me Kansas
And I know I've never been there
But it's a place I love to go
The April air, the crescent moon
Two wild hearts with nothing to lose
That weekend was all we had
But what I'd give for two more days like that
She looked at me and said goodbye
And kissed my lips one last time
She called me Kansas
She said that I reminded her of home
She called me Kansas
And I know I've never been there
But it's a place I love to go
Kansas, I'll always remember
Kansas, I hear your name
And I am with her
She called me Kansas
She said that I reminded her of home
She called me Kansas
And I know I've never been there
But it's a place I love to go
Kansas, she said that I reminded her of home
She called me Kansas
And I know I've never been there, oh, no
Kansas, she called me Kansas
Kansas, yeah
It's a place I'm gonna go
Kansas
