

# Waste Another Day

## Pennywise

Six revolution mindless actors a few that  
Know the score refuse the setup  
Break down the door recoiling with no  
Way out hungering for more don't let  
It play out you have a choice  
Unwittingly you hope it's not too late  
This is your soul get up and go believe  
Me they are signing for your fate so  
You need to say won't give up i'll never  
Fade away i don't wanna waste another  
day i don't wanna no way i won't give up  
i'll never fade away i'm not gonna  
Waste another day their hunger's  
Never ending encroaching at your  
Door You can't stay hidden forever  
More the cold and gray upon you  
Suffocates your core a fatal layout  
Prepare for war the pressure's  
Bearing down what will it take open  
Your eyes and stay awake you can't let  
Them decide don't hesitate so you need  
To say you won't take it we are the  
Truth we won't take no for an answer  
It's me and you and this time we need  
Something more let's start all over  
Again because it's never too late to make it right my friend
