

Let's Mount Up

ASCENDANT

The earth is shaking
The others are testing
Our commitment to the Lord
This is now
We must stand
We, the warriors of the Lord
Of the Lord
Lets mount up
And grab the sword
The flaming sword
Against the legions of the dark
Of the dark
I will face you
Son of the morning
Like the Lion faces its prey
I will hunt you down
Astray
Rise up, rise up from the grounds
Rise up rise up, like He rose
This is the day, come on lets fight
This is the day, one of the light
Lets mount up and grab the sword
