

# Like a Baby

[Joe Lally](#)

Foreign skies  
Blinded me to empty charms  
I crossed the ocean  
Fell into your arms  
So sure, so wrong  
You sang me a simple tune  
I took it for a song  
Say goodbye  
Don't tell me why you have to go  
Loving you was as good as gone  
As good as gone  
I'd love to love you really love you  
Want to see

There's something you should know  
I really never think you'd go  
Because today  
I could have sworn I heard you'd say  
"I love you, I want you  
I need to be with you today"  
I saw something in your face  
Stay here beside me  
I need your love to hide me  
Your love and now it's gone away  
You left me crying like a baby  
Like a baby
